

*An economy without financial literacy is like a landscape with no water...*

# QUENCH THE THIRST

## DID YOU KNOW?

- Of 6,000 students who took the Jump\$tart personal finance survey, 62% received failing scores.
- Fewer than 30% of high school students take as much as one week's worth of course study in money management or personal finance.
- Today, teens spend nearly 30% of their monthly income just on debt repayment. That is double the percent spent in 1992.

That's why The Actuarial Foundation developed ***Building Your Future***, an engaging and relevant high school financial literacy curriculum resource.

## ABOUT THE "BUILDING YOUR FUTURE" PROGRAM

At a time of widespread economic turmoil and financial challenges, our teens must be taught how to manage money wisely so they can make smart decisions today and in the future. ***Building Your Future*** will give teens a reservoir of financial knowledge they can draw upon for the rest of their lives. You can view the ***Building Your Future*** curriculum at: [www.actuarialfoundation.org/programs/youth/BuildingYourFuture.shtml](http://www.actuarialfoundation.org/programs/youth/BuildingYourFuture.shtml)

## "QUENCH THE THIRST" FOR A HIGH SCHOOL CLASSROOM

Your gift of \$250 provides one high school classroom with the ***Building Your Future*** curriculum, which will be sent to a high school identified by the Foundation or a school of your choosing; along with a letter identifying you as the donor, if you wish. Perhaps you would like to benefit your alma mater, a neighborhood school, or your child or grandchild's school.

You can make a difference! Complete and submit the following form, or donate online at: [www.actuarialfoundation.org/donate/index.shtml](http://www.actuarialfoundation.org/donate/index.shtml) to begin to **QUENCH THE THIRST** of students across the country.

# QUENCH THE THIRST
